Our Waterford Teams

Sun Life Ireland

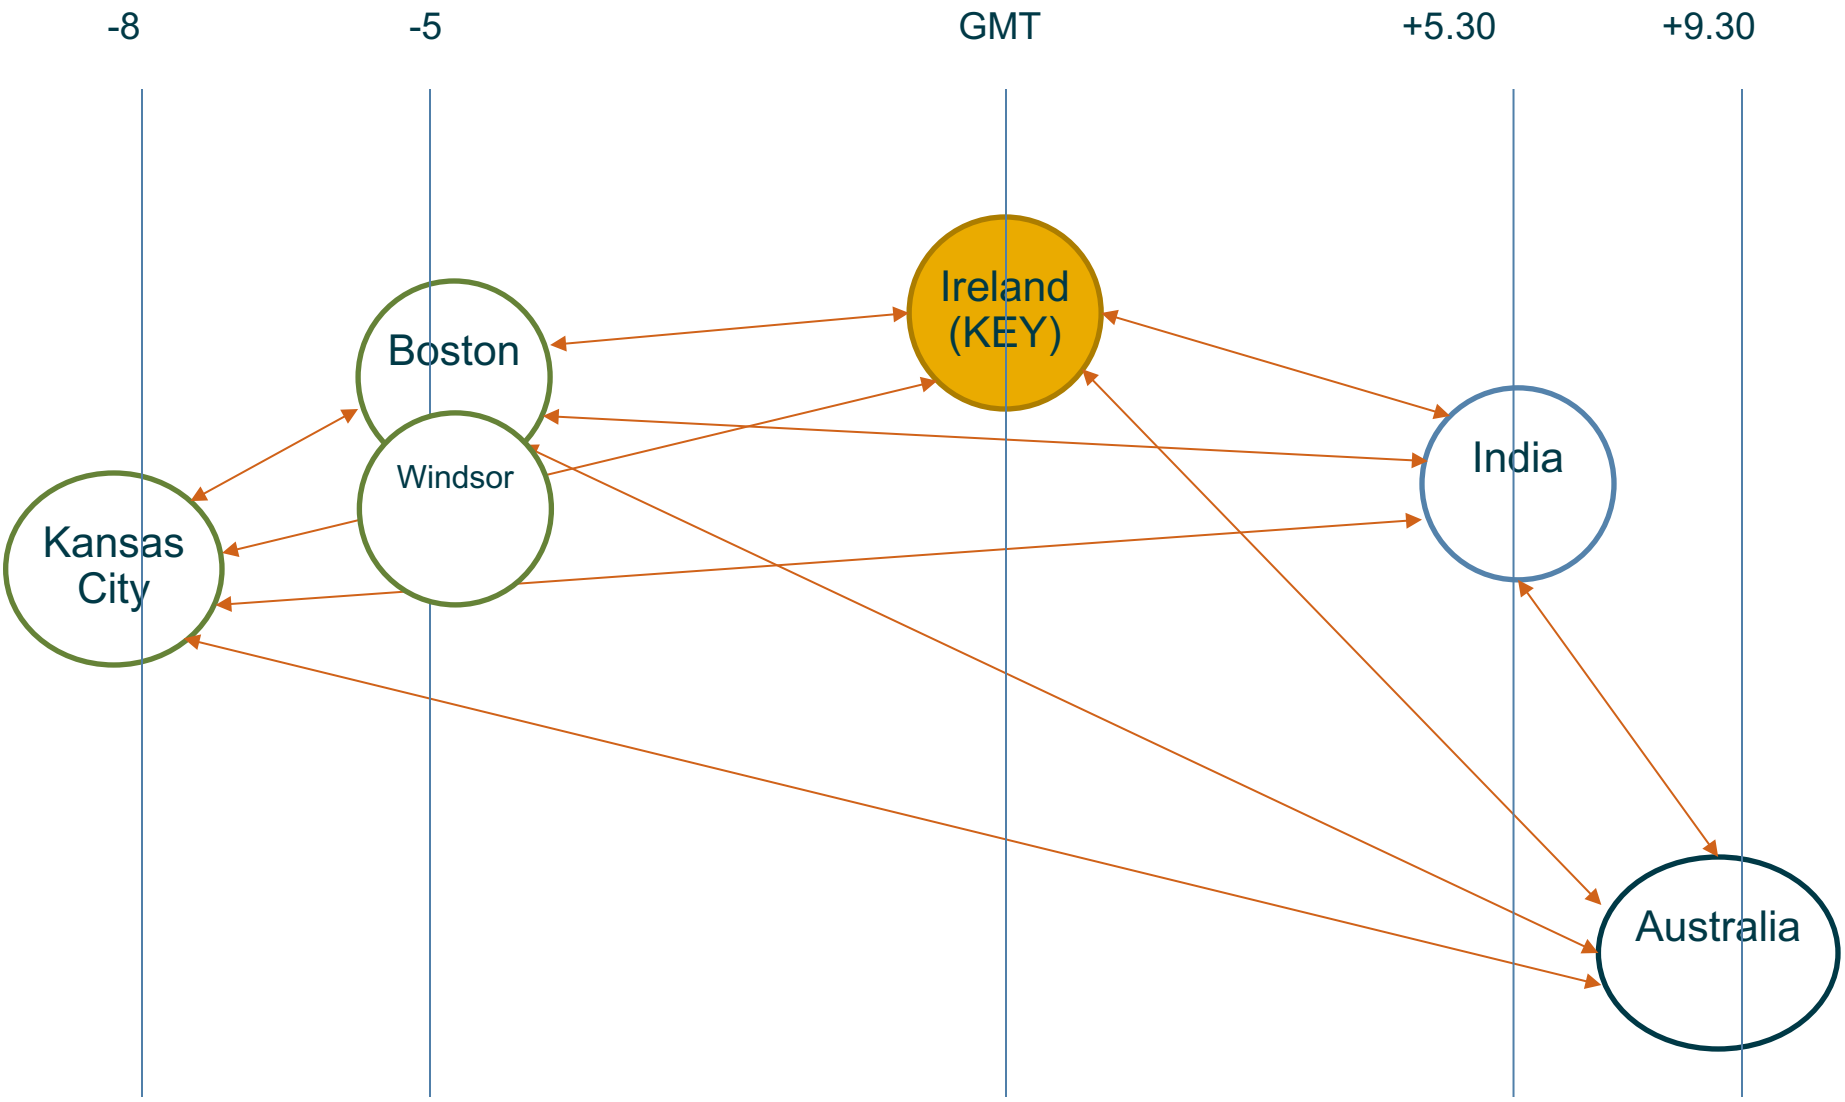

Factors

- Culture
- Type of work
- Scope of work
- Work experience
- Communication
- How you/they work

Sunlife Distributed Teams Matrix

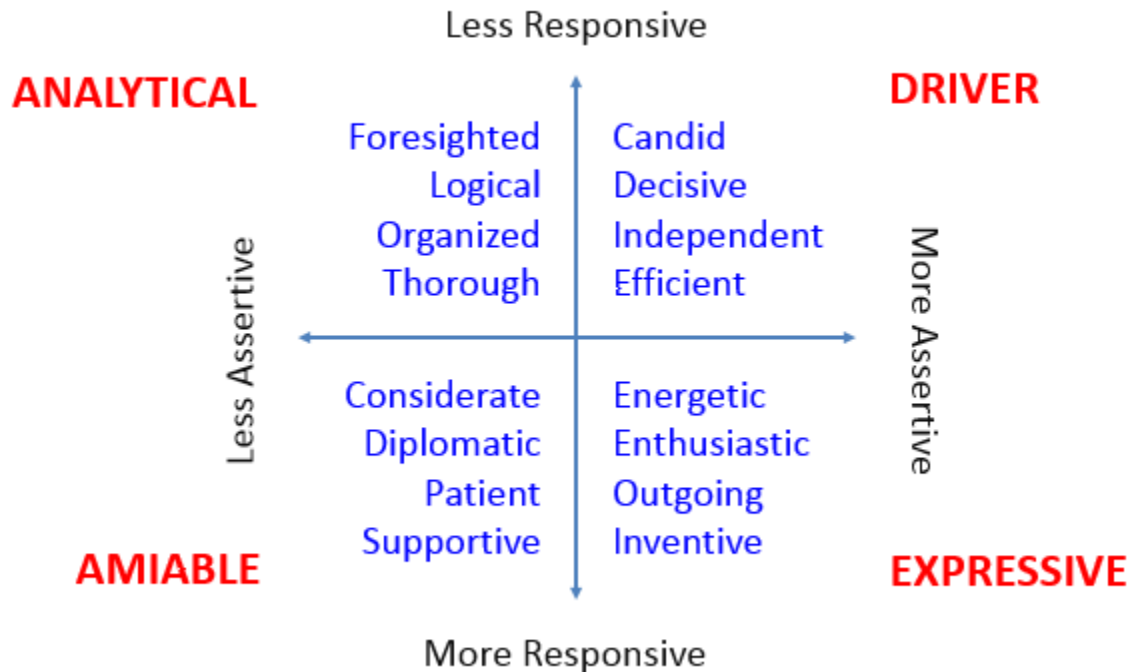

Intercultural Differences

- **Intercultural Study (Cultural Differences in Business Communication; John N. Hooker)**
 - **Cultural differences**
 - **Relationship-based and Rule-based Cultures**
 - **Power Distance**
 - This dimension relates to the degree of equality/inequality between people in a particular society.
 - **Negotiation and Decision Making**
 - **Intercultural Business Communication - NB**
 - The key to cross-cultural business is understanding one's business partners well enough to make cultural adjustments.
 - **E.G: Kansas City vs Boston vs Waterford vs Hyderabad**

Intercultural Differences – Social Styles

- Try to understand each others styles
 - Development teams typically have a lot of people in the Analytical quadrant
 - PMs tend to be Drivers
 - People who like doing presentations/singing, etc. are Expressives
 - Amiables are the personable people in the team who help to keep people connected.

Distributed Development Vs. Outsourcing

- Distributed Development
 - Extension of the team
 - Working directly/continuously with the main team
- Outsourcing
 - Fully implemented work
 - Specific Skillsets or
 - Generally lower cost center

Keep in House

- Architecture/Design
- Tech Leads
- Core Systems
 - Engine Technology
 - Hardware
 - DBs

Out of House

- 2nd - 3rd tier technology
 - User Interface
 - Billing
 - M & E
 - Bug Fixing/Scripting
- Identify strong Tech Leads in a remote team
 - Good English
 - Strong technical abilities
 - Leadership qualities

Work History

- What typical products have they developed
 - Small/large scale
 - Complexity
 - References
 - Ability to travel

** Try before you buy...

It is all about Communication.....

- What is the communication plan
- Who owns the overall vision
- Who is responsible at each site for making decisions
 - Avoid centralized decision making
- Continuously share the vision

It is all about Communication.....

- Provide multiple communication paths
 - Daily Standups
 - Video Chat
 - Continuous communication
 - Text Chat
 - Phone

****Ensure these systems work and are always available****

It is all about Communication.....

Using technology – team meetings

Camera and Voice (18)

A grid of 18 small video call windows, each showing a different participant. Each window has a name label at the bottom. The participants are: Justin Masson, Jesse Kielthy, Michelle Herrold, Jen Dyer, Stacy Maciel, Amanda Pate, Karleen Knuth, Matthew White, Ken Baker, Carrie Sterenberg, Jen Mueller, Amy Smith, Anthony Ciaramicoli, Debbie Ruth, Brian McTeague, Briana Jury, Steph, and Anne P.

Team Agenda

Updates:

- Merit increases & AIP
- Resource Mapping
- Upcoming holidays
- Training Requests

Team Notes (01/30/2017 mtg)

Update Notes:

- Merit increases & AIP conversations will be mid February
- Please ensure you have your Q2 resource maps completed and in the Sharepoint by 02/03
- Jesse will be off the week of 03/03
- National Account training will start the week of 02/20 (Joe to support)

Using technology – team meetings

Camera and Voice (18)

Kudos/Shout Outs! (Everyone)

Justin Masson: Thanks to Steph for finishing the Micro Learning 1 page job aid
 Jesse Kielthy: Just want to say huge congratulations to Mary and John on their recent engagement!!

Learned something new... (Everyone)

Justin Masson: The new Avaya phones have a power regulator on the back of them that needs to be adjusted to allow them to work properly (KC NET)
 Jesse Kielthy: Doing presentations but don't have a laser? Hold down the CTRL button while at the same time press-and-hold the left button on your mouse and you'll get a laser pointer on your slide

Needing help... (Everyone)

Justin Masson: Does anyone have any documentation on GWEW or Workbench that I can repurpose for an upcoming training
 Jesse Kielthy: Anyone know how I can book catering services in KC?

Using technology – 1-to-1 meetings

Take Aways

Jesse
- Send Justin the metric report from the Project Management update

Justin
- Send Jesse the Call Center Training schedule for Ireland to look for resource & training room availability

Get your teams face to face

- Key points for person to person contact
 - Inception
 - What is the concept/goal for the project
 - Talk about how things will work
 - Expectations on quality
 - Development/Production
 - Review final designs
 - How are we splitting the work
 - Post Production
 - Process for managing defects
 - Process for shutting the product down

Dealing with time zones

- What are the common working hours
 - Can you shift development times closer?
- Who stays late/who gets up early?
 - Multiple time zone impact
 - Consider impact to efficiency when selecting partners and development type
- Central Hub i.e Waterford

Know your team members

- How do individuals work in each geo location?
 - Self Starters (SLF Perm Leads)
 - Ability to handoff work with little oversight
 - Can work from basic information
 - Directed Developers (EBIX contractors India)
 - Require specific direction and oversight
 - Prefer well documented instructions

Project Methodologies

- What methodologies will each location use
 - Agile, Waterfall, Lean/Kanban
- What is the level of experience with the selected methodologies
 - Do the remote teams choices work with the main teams
- How are the key metrics tracked
 - Does everyone understand their role

- Unified project management tool
 - Accessible from each remote location
 - Allows remote location to manage “their” work
 - Support the development methodologies teams use
 - Agile, Waterfall, Lean/Kanban
 - Encourage communication process
 - Allow project leadership to get a high level view of project data
 - Ability to dig into the details

Dev Ops Strategy/Tools

- In developing our DevOps strategy we wanted all teams to speak the same language, and have a shared understanding and skills accessible from each remote location.
- Break down the silos that had been built over time, bringing teams closer together and aligning resources to delivering products, so that we can be more agile, nibble, developing and releasing high quality products quickly, efficiently and reliably.
- Remotely accessible tools such as Git, SVN, Jenkins, Sonar Cube, Ansible, Harvest etc

Summary

- Culture
- Type of work
- Scope of work
- Work experience
- Communication
- How you/they work
